Fiction That Grabs Like a Hollywood Blockbuster

Offworld by Robin Parrish

Minneapolis, MN—Known for his page-turning DOMINION TRILOGY, Robin Parrish switches gears and ups the ante in his new stand-alone, *Offworld*.

“My books read like ‘movies in the mind’—they’re fast paced and highly visual,” said Parrish. “*Offworld* maintains the epic, ‘big-screen’ qualities people expect from my stories.”

Full of action, suspense, and (most of all) mystery, *Offworld* follows a crew of astronauts who’ve recently returned to Earth from the first manned mission to Mars. But their return home marks their greatest discovery yet: every man, woman, and child has vanished.

Beneath the crew’s rocket-paced race for answers lies a subtle but profound theme. “I was deeply drawn to addressing the affliction that is loneliness,” explained Parrish, who experienced this firsthand. “Loneliness is a killer. It’s a silent epidemic, and it can completely demoralize you. We are not made to live solitary lives. We were made for community. If ever the world needed to be reminded of this, it’s now.”

Commander Christopher Burke and his crew are the first human beings to walk on the surface of Mars. With their mission finished, they just want to get back to Earth. To see friends, family, and loved ones. To be home.

But even with communication to ground control cut and a perilous landing, nothing could prepare the crew for what they discover when they step foot back on planet Earth: Everyone...everywhere... is gone.

As Burke and his team set out to find out who or what is behind the disappearance of all mankind, they soon find they may not be as alone as they thought.

“Robin Parrish is the kind of writer who understands how to entertain from the word go. His stories are sure to shape fiction for years to come.”

—*Ted Dekker*

“This is first-rate storytelling, and an action-packed ride.”

—*Eric Wilson, NY Times bestselling author of Fireproof and Haunt of Jackals*

**“One thing is absolutely certain: these books will leave you breathless.
Highly Recommended.”**
